

# Kuala Lumpur MALAYSIA

**KY**

Data management lead, food and travel blogger; [kyspeaks.com](http://kyspeaks.com)

**The best attraction or local hangout to take a guest is...** KL Bird Park. It's actually one of the biggest in the world, it's very well kept and has a huge number of free-flying birds. You also get to have coffee at the little café and get visited

by a giant hornbill that will try to steal your fries! **The best place for a selfie or groupie is...** The KLCC park, what's better than having the iconic tower behind you in a picture?

**The best place to go shopping in my city is...** the old town of Petaling Jaya, where you can find quaint

dinnerware and congkak. We also have more than our fair share of giant shopping malls in the city **If you're only there for a day, a must-do is...** to try all the local food you can get your hands on. If you have only one meal, head to Klang for some good old-fashioned *bak kut teh!*

**A place in the city visitors might not be aware of that I love going to is...** Aquaria at KLCC, it's a hidden treasure in the city. The aquarium is underground and provides a huge and tranquil contrast to the busy streets and the heat.

**The best place for local eats is...** food courts, there are hundreds everywhere. But if I have to pick one, it'll be Jalan Sayur, also known as *Pudu Wai Sek Kai*, in the city for supper. **The best place for a drink or meal with a view is...** Thirty8 at Grand Hyatt hotel, it has an unobstructed view of KLCC and the KL skyline via two-storey high windows.
